

ICL-239 and ICL-244

Image Color LED Lights

PRODUCT OVERVIEW:

The ICL-239/ICL-244 modules emit light in the colours of the rainbow spectrum using 9 high intensity LEDs. Up to four lights can be connected to a single IMC-213 and are all synchronized. Colour selection can be saved when using User stores functions on a compatible Image display module.

FEATURES / BENEFITS

- Cycles through a color rainbow permitting the user to select and store preferred color
- Up to four units can be connected together via daisy chain wiring
- ICL-239 - physical dimensions approximately 2.30" x 3.30", mounting hole of 1.65
- ICL-244 - physical dimensions approximately 3.50" x 2.50", mounting hole of 2.50
- ICL-244 fits into a standard front serviceable light fixture
- LED lighting provides very long life
- Printed circuit board is conformal coated for protection against corrosion
- Easy to service
- Mini Din cable provides secure connection to module
